

D2Xchange Nominated for 2011 Apex Award

PaymentXpress, a software application D2Xchange developed in 2010 to help customers in the consumer products industry audit advertising, promotional and expense management programs has been nominated for a 2011 Apex Award. Sponsored by the Colorado Software and Internet Association (CSIA), the annual Apex Awards recognize outstanding technological accomplishments and leadership. They are presented in five categories for companies and five categories for professionals. The awards recognize success, innovation, vision, leadership, community contributions and excellence in customer support.

The software application for which D2Xchange was nominated provides customers the following capabilities:

- Oversight of Treasury Management Funding of accounts from which customers write advertising, promotion or expense checks
- Views of check images and data collected from the face of the original check (e.g., payee, reason for check being written, etc.) for checks cleared through customer's bank
- Functionality to make dynamic, daily decisions re: status of check (e.g., pay or deny)
- Robust, on-demand reporting capabilities for activities such as cleared and/or paid items, suspect, void or returned items, etc.)
- Self-service options to add or delete users from the system and/or to manage checkbook creation and distribution

About D2Xchange

About CSIA

CSIA is the technology industry leader in uniting and growing Colorado's information technology industry by providing advocacy, education, business connections, and information, while supporting economic development, unification of technology stakeholders, and larger recognition of the industry and the people involved to develop and promote Colorado's technology industry. CSIA also works nationally to ensure Colorado's technology voice is heard, through TECNA, a coalition of technology associations across the United States and Canada, as well as with TechAmerica, the national lobbying organization for federal issues. Since 1994, CSIA has been involved in legislative issues and public policy to represent the information technology industry in Colorado, and has provided a number of annual programs, events and connections to support business success.
